1. INTRODUCTION

1.1. Purpose

Hospital Engagement Module (HEM) is aimed to facilitate the users to perform the various hospitals/health care facility related activities. Users are provided with the one stop solution for facility empanelment, de-empanelment, upgrade, withdraw, etc. Single admin can handle various facilities under single interactive dashboard using same credentials.

1.2. Features

Users will login into the HEM application which enables the following features for them:

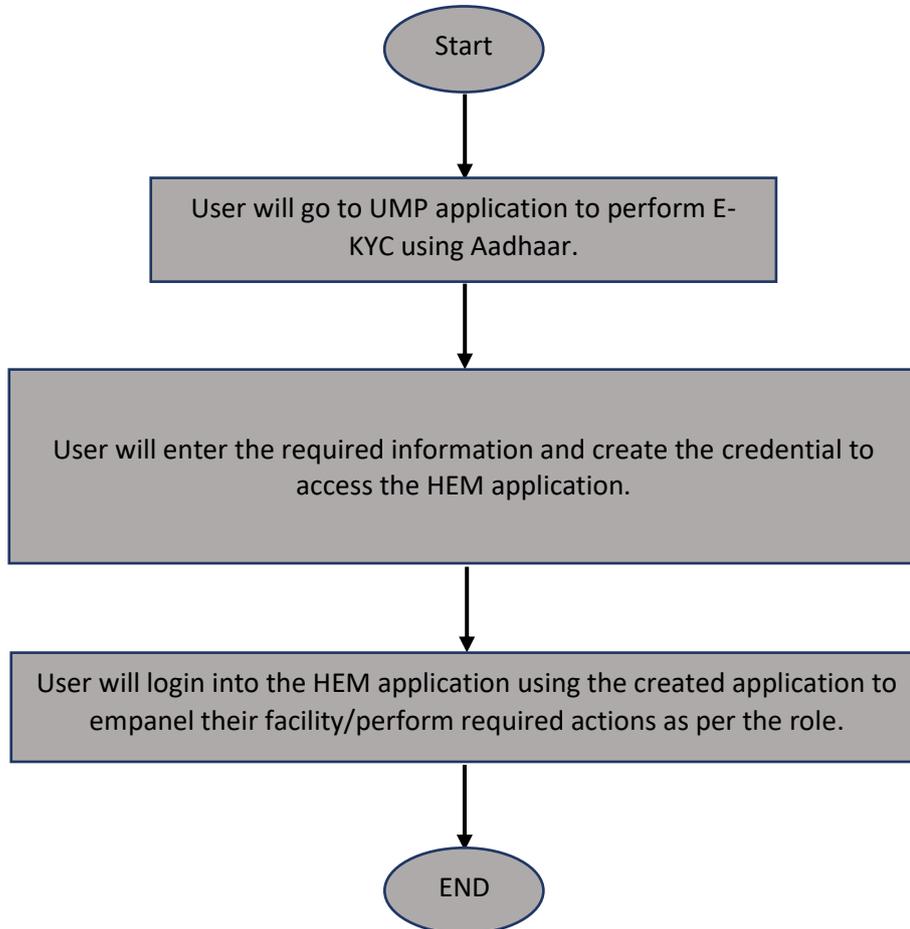

1. Registration of Health Care Service Provider for empanelment
2. Verification of empanelment request
 - a) Physical verification
 - b) L1 Approval
 - c) L2 Approval
3. Disciplinary actions of Health Care Service Provider
 - a) General Communication
 - b) Show cause notice
 - c) Stop Payments
 - d) De-Empanelment
 - e) Blacklist
 - f) Suspension
 - g) Immediate Suspension
 - h) Request to Revoke Facility
 - i) Re-empanelment
 - j) Inactive
 - k) Penalty
 - l) FIR
 - m) De-empanelment of speciality
4. Update and Upgrade Details
5. Withdrawal from PMJAY2.0 scheme
6. Health Facility Registry integration
7. Audit Process
8. Find Hospital
9. Feedback Form

10. Green Channel
11. Annual Declaration
12. Group Creation
13. Hospital Profile
14. E-sign
15. Quality Audit

1.3. HEM Roles

1. **Hospital Admin:** The users who are going to access the HEM application to perform the activities with respect to their facility or group of facilities
2. **Level 1 Approver:** The users who are responsible for the level 1 approval for the facilities raised by their respective admin and get them inspect at field level. L1 approver's decision is not the final decision, they recommend their suggestion to L2 approver for the final action.
3. **Level2 Approver:** The users who are responsible for the level 2 approval for the facilities which has been actioned upon by L1 approver or can directly take the final decision over the facility under their region/state as per the workflow.
4. **EDC User:** These are the type of users who are going to perform the disciplinary action against any facility.
5. **Physical Verifier:** The user will perform the ground level physical verification and provide their inputs in the application against the assigned facility.
6. **NHA Officer:** The user will perform the activities for the facilities such as GOI hospitals or the facilities under non- implementing states and perform the activities as per the workflow.

2. HEM USER CREATION PROCESS FLOW

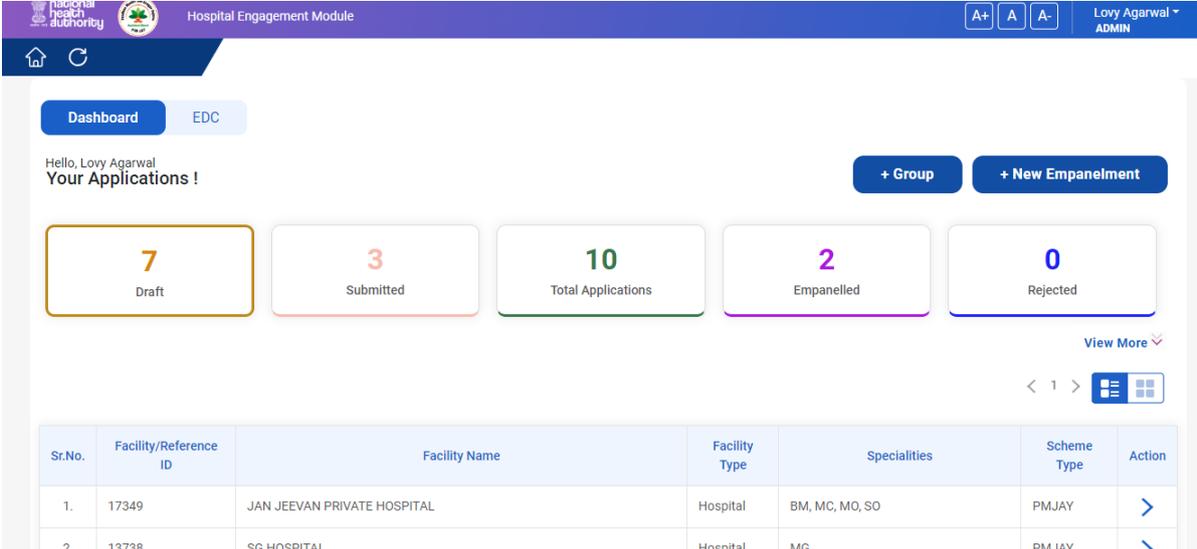

3. USER HIERARCHY TABLE FOR ROLE CREATION

4. FACILITY EMPANELMENT

4.1. HEM-HFR data linkage

PMJAY Users shall be able to populate data in HEM from HFR accounts such that same data can be maintained with single time efforts in both the applications. User will populate the data by entering the HFR ids in HEM application and confirm it, in case the account is not created in HFR then the link is provided which redirect to the ABDM HFR application. User clicks on New Empanelment tab and a confirmation will be done if the hospital needs to be empanelled under group. In case of group hospital, it will be populated to the existing group to add the facility.

The screenshot shows the Hospital Engagement Module (HEM) dashboard. The header includes the National Health Authority logo, the text 'Hospital Engagement Module', and user information 'Lovy Agarwal ADMIN'. The dashboard displays a greeting 'Hello, Lovy Agarwal Your Applications!' and two buttons: '+ Group' and '+ New Empanelment'. Below this, there are five summary cards: '7 Draft', '3 Submitted', '10 Total Applications', '2 Empanelled', and '0 Rejected'. A 'View More' link is present. At the bottom, a table lists facilities with columns for Sr.No., Facility/Reference ID, Facility Name, Facility Type, Specialities, Scheme Type, and Action.

Sr.No.	Facility/Reference ID	Facility Name	Facility Type	Specialities	Scheme Type	Action
1.	17349	JAN JEEVAN PRIVATE HOSPITAL	Hospital	BM, MC, MO, SO	PMJAY	>
2.	13738	SG HOSPITAL	Hospital	MG	PMJAY	>

In case of single hospitals, a new window populates which asks if the facility is registered in ABDM-HFR. If 'Yes', user will be required to enter the HFR ID and the required data will get populated in the empanelment form while in case of 'No', User is asked to fill the details in ABDM-HFR via link provide on the screen. Once the HFR data is filled user is asked to come to the HEM application and continue the process of empanelment by logging in and entering the created HFR ID.

5. LEVEL 1 APPROVER (DEC)

Approver user login can be created by signing up on UMP application by creating the required HEM approver roles on the application. Once the role is approved by competent authorities, the approver can access the application.

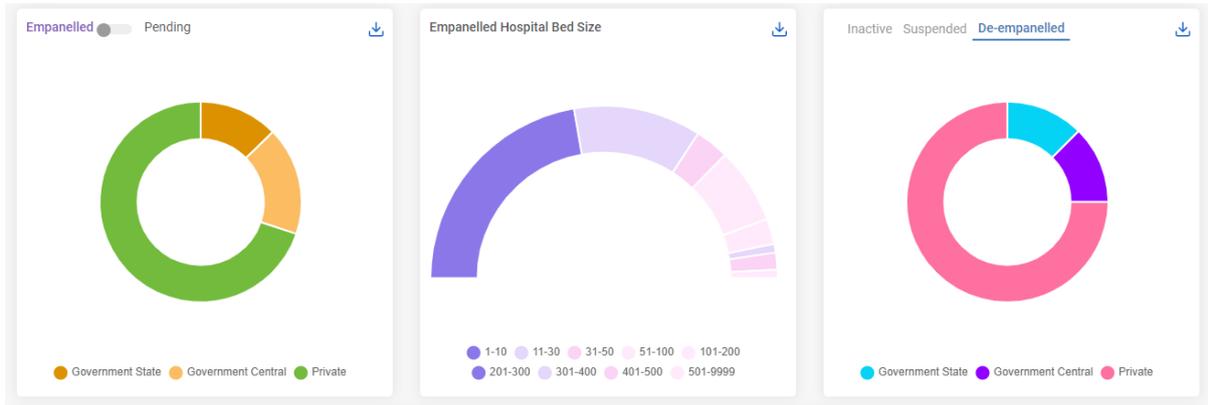

5.1. Dashboard

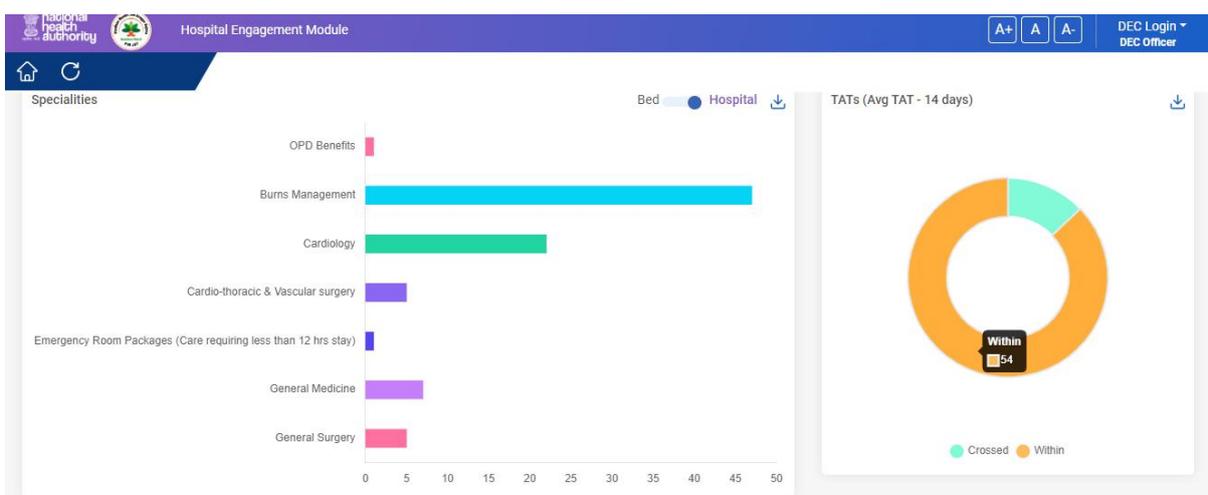

Approver user logs into the HEM application through the same credentials created in UMP application. Here, user will be able to view the count of application under various status at the top of the dashboard that can be filtered using the scheme, Hospital type, District options located at the top of the dashboard.

On scrolling the application down, User can view the graphs representing the empanelled-Pending bifurcated amongst the Private, Government-state, Government-Central. The graph next to it represents the empanelled count of hospitals based on Bed sizes. Third graph represents the count of Inactive, Suspended, De-Empanelled hospital bifurcated amongst private, government-Central, Government-State

On further scrolling down, user will be able to view the count of hospital and beds based on the specialities in the respective district. While the graph next to it represents count of applications based on turn-around time while the green channel hospital graph will be there at the bottom.

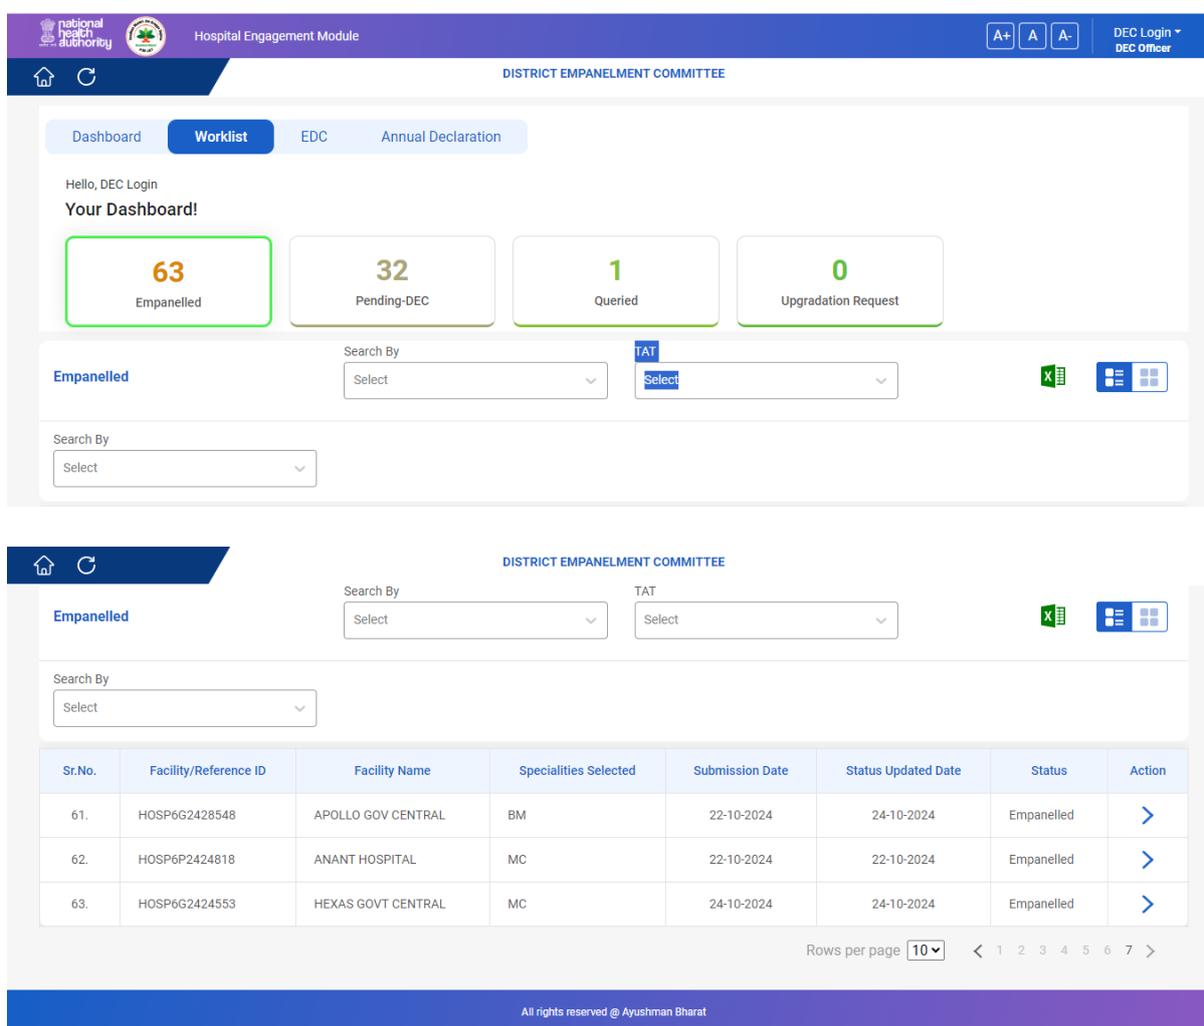

5.2. Worklist

User can view the list of applications under this section where the list is visible to the user based on the selected cards such as Empanelled, Pending-DEC, Queried, Upgrade request.

Empanelled Card: It represents the list of facilities empanelled under the DEC's district. The list at the bottom can be filtered based on the various parameters such as Facility Type, TAT, Reference/Facility ID, Facility number, Facility Name, etc.

When a facility is selected, the details of the facility will appear in a card along with the workflow history details against the facility. DEC can also view the empanelment form of the selected facility from the blue coloured action button in the facility details card.

Dashboard Summary:

- Empanelled: 63
- Pending-DEC: 32
- Queried: 1
- Upgradation Request: 0

Table of Empanelled Facilities:

6. LEVEL 2 APPROVER (SEC)

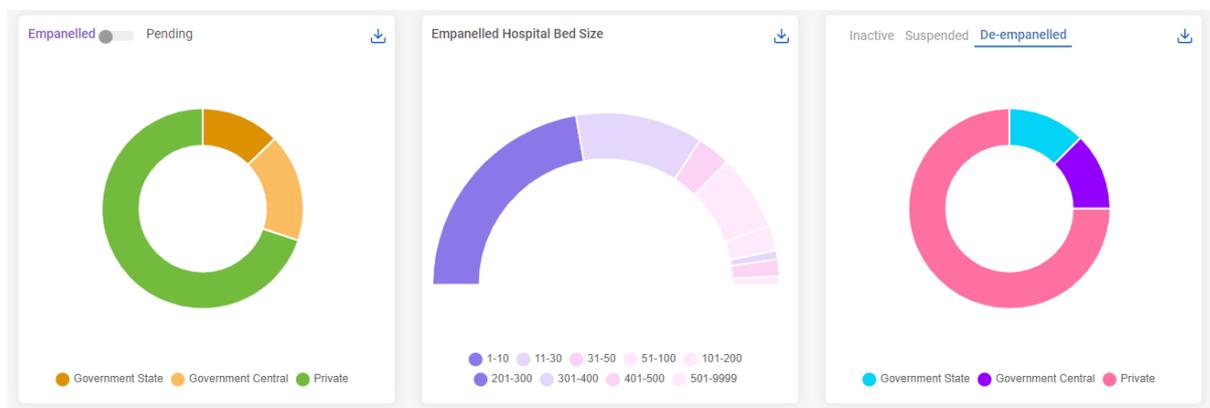

Approver user login can be created by signing up on UMP application by creating the required HEM approver roles on the application.

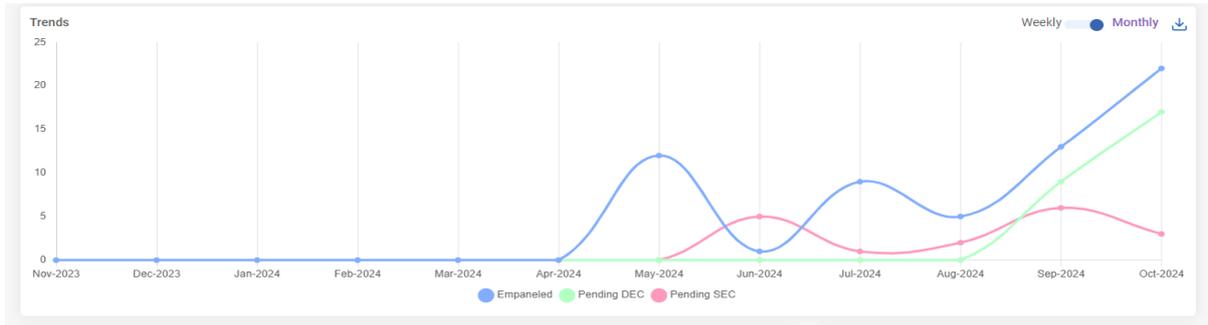

6.1. Dashboard

Approver user logs into the HEM application through the same credentials created in UMP application. Here, user will be able to view the count of application under various status at the top of the dashboard that can be filtered using the scheme, Hospital type, District options located at the top of the dashboard.

On scrolling the application down, User can view the graphs representing the empanelled-Pending bifurcated amongst the Private, Government-state, Government-Central. The graph next to it represents the empanelled count of hospitals based on Bed sizes. Third graph represents the count of Inactive, Suspended, De-Empanelled hospital bifurcated amongst private, government-Central, Government-State

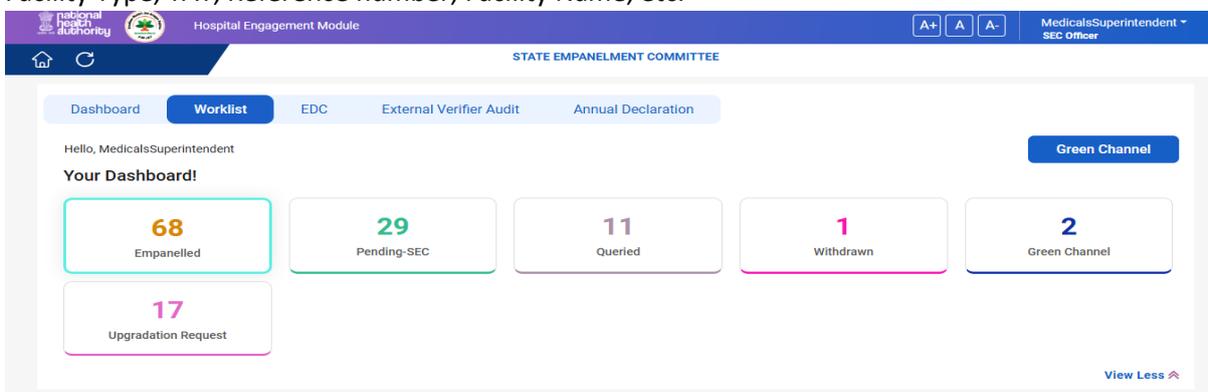

On further scrolling down, user will be able to view the count of hospital and beds based on the specialities in the respective district. While the graph next to it represents count of applications based on turn-around time while the green channel hospital graph will be there at the bottom.

6.2. Worklist

User can view the list of applications under this section where the list is visible to the user based on the selected cards such as Empaneled, Pending-SEC, Queried, Upgrade request, Withdraw, Green channel etc. The list at the bottom can be bifurcated based on the various parameters such as Facility Type, TAT, Reference number, Facility Name, etc.

Sr.No.	Facility/Reference ID	Facility Name	Specialities Selected	Submission Date	Status Updated Date	Status	Action

In case the physical verification is not completed, the officer will assign it for physical verification and verify the input details by verifier and take the necessary action as per the requirement.

Queried Card: It represents the list of facilities requested for queried either to DEC or to facility.

Once a query is applied to a facility, the facility has a time period of 3 days to respond on the same, if the response is not provided, the empanelment application will be sent back to SEC for the further action by the system.

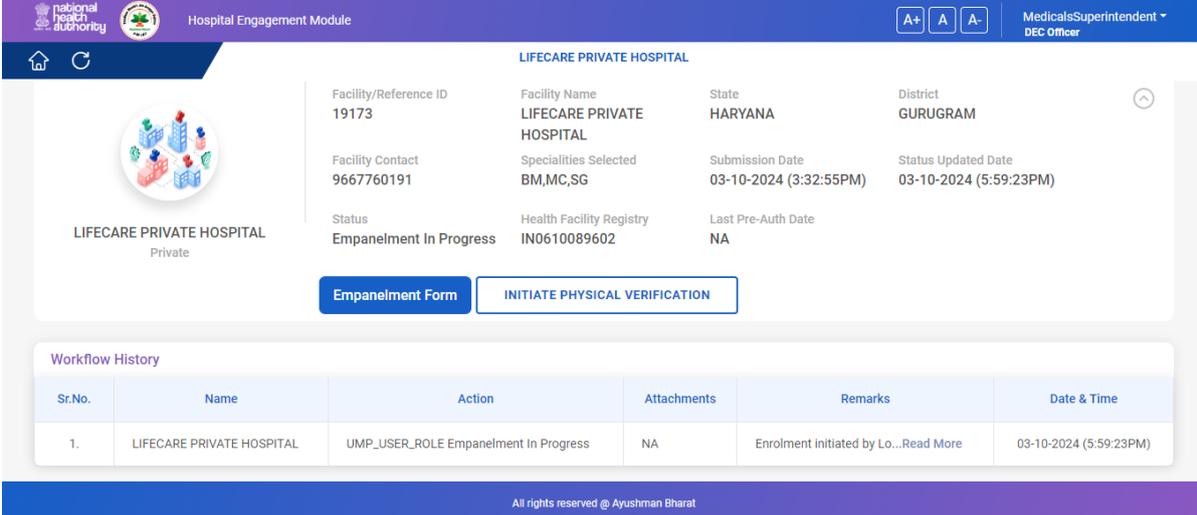

Withdraw: The card represents the list of facilities requested for the withdraw from the scheme. SEC is required to take the necessary actions on the requests.

Green Channel: The card represents the list of facilities which have applied to avail the feature of green channel or the facilities which wants to take the exit from the green channel and SEC will be required to take the action on the same.

Upgrade: The card shows the list of facilities which have raised the request to make some enhancements in their application. Facility will directly submit the application to SEC and SEC can directly approve or assign it for physical verification as per the necessity.

6.3. Physical Verification

SEC officer will be able to assign the empanelment form for physical verification to either of SEC verifier or external verifier . SEC officer will open the details of the facility and click on the ‘Initiate Physical Verification’ button.

The screenshot displays the 'Hospital Engagement Module' interface for 'LIFECARE PRIVATE HOSPITAL'. The header includes the National Health Authority logo, the module name, and user information for 'Medicals Superintendent DEC Officer'. The main content area shows facility details:

- Facility/Reference ID: 19173
- Facility Name: LIFECARE PRIVATE HOSPITAL
- State: HARYANA
- District: GURUGRAM
- Facility Contact: 9667760191
- Specialities Selected: BM,MC,SG
- Submission Date: 03-10-2024 (3:32:55PM)
- Status Updated Date: 03-10-2024 (5:59:23PM)
- Status: Empanelment In Progress
- Health Facility Registry: IN0610089602
- Last Pre-Auth Date: NA

1. General Communication: (Card, Action)

The action can be performed by EDC user to share some information with the facility. The user will select the option and submit it and the information will be visible to the facility admin under the general communication card on the facility dashboard.

FLOW: EDC->Facility

2. Show cause notice (Card, Action)

The action can be performed by EDC to give show cause notice to a facility. The user will select the action and submit it to the facility with the due date of response. Facility can respond on the notice and EDC can initiate further actions in case response is not received or not satisfactory. The actions will be as follows:

a. Stop payment (Card, Action)

The action will be initiated by EDC to stop payments against the facility, once the action is approved by SEC, the information will be passed to TMS for the action.

Flow: EDC->SEC

Note: Further Action of Suspension, De-empanelment, Blacklist can be taken under the card.

b. Suspension (Card, Action)

The action will be initiated by EDC to suspend a facility for the maximum period of 6 months, once the action is approved by SEC, the information will be passed to TMS for the action.

Flow: EDC->SEC

Note: Further Action of De-empanelment, Blacklist can be taken under the card.

c. De empanelment (Card, Action)

The action will be initiated by EDC to de-empanel a facility for the maximum period of 12 months, once the action is approved by SEC, the information will be passed to TMS for the action.

Flow: EDC->SEC

Note: Further Action of Blacklist can be taken under the card.

d. Blacklisted (Card, Action)

The action will be initiated by EDC to Blacklist a facility for the maximum period of 24 months, once the action is approved by SEC, the information will be passed to TMS for the action.

Flow: EDC->SEC

e. De-empanelment of specialty (Card, Action)

The action will be initiated by EDC to de-empanel specialty of a facility under the scheme. Once approved by SEC, it will be communicated to TMS.

f. Accepted (Action)

3. Investigation FIR (Card, Action)

EDC user can raise the investigation against any facility,
The action will be initiated by EDC which once approved by SEC will be stored in the system.

4. Investigation Penalty (Card, Action)

The action will be initiated by EDC to impose a penalty against any facility. It will further consists of the following input values.

- i. Penalty Amount with order ID and date.
- ii. Penalty Reviewed with order ID and date.
- iii. Penalty Recovered with order ID and date.
- iv. Penalty Amount Pending with order ID and date.

The EDC user will initiate the penalty by entering the Penalty amount with its order id and date will be captured. Once submitted to SEC, the user will enter the reviewed penalty amount and approve it. At a later point of time, Recovered and pending will be updated.

FLOW: EDC-> SEC

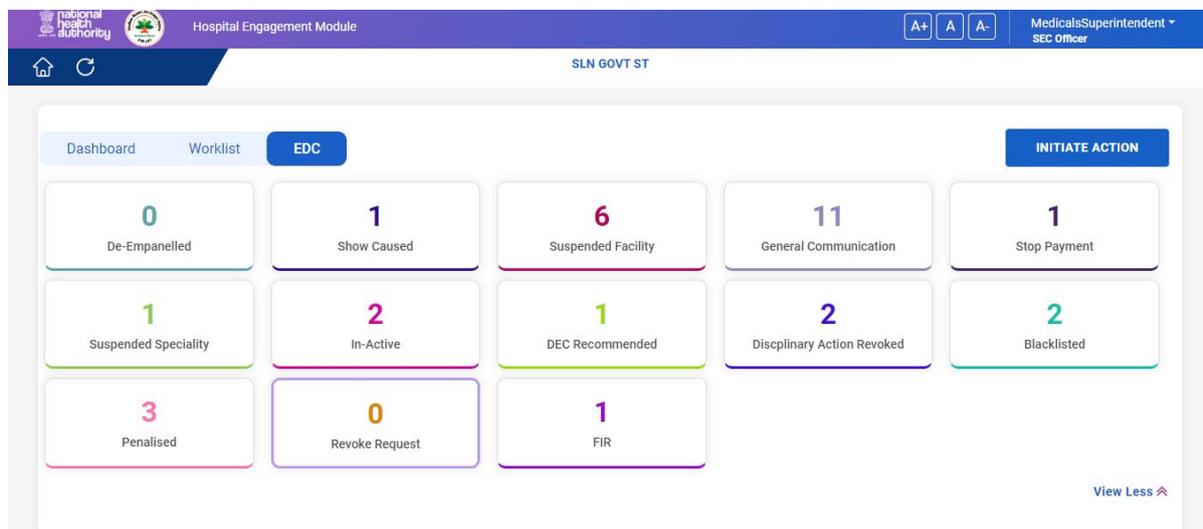

5. Immediate Suspension (Action)

EDC user can initiate the action which once approved by SEC, the facility will be marked as suspended without any prior action for the maximum period of 6 months.

FLOW: EDC-> SEC

SEC:

SEC role will be provided to the authority responsible for the approval of the disciplinary action raised against any facility in the state. SEC have the privilege to initiate and approve the actions against any facility in the state. By clicking on the Initiate action button SEC can initiate the disciplinary actions against a facility.

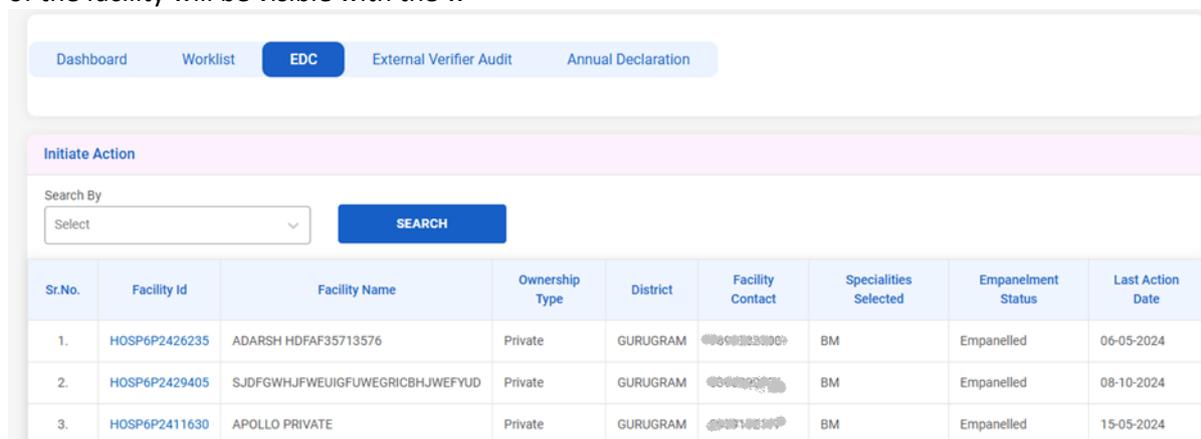

The screenshot shows the 'Hospital Engagement Module' dashboard for 'SLN GOVT ST'. The user is logged in as 'MedicalsSuperintendent - SEC Officer'. The 'EDC' tab is active, displaying a grid of disciplinary action statistics:

Category	Count
De-Empanelled	0
Show Caused	1
Suspended Facility	6
General Communication	11
Stop Payment	1
Suspended Speciality	1
In-Active	2
DEC Recommended	1
Disciplinary Action Revoked	2
Blacklisted	2
Penalised	3
Revoke Request	0
FIR	1

An 'INITIATE ACTION' button is visible in the top right corner of the dashboard.

The official will select the facility for the disciplinary action by clicking the facility ID and the details of the facility will be visible with the w

The screenshot shows the 'Initiate Action' form. It includes a search bar with a dropdown menu and a 'SEARCH' button. Below the search bar is a table listing facilities:

Sr.No.	Facility Id	Facility Name	Ownership Type	District	Facility Contact	Specialities Selected	Empanelment Status	Last Action Date

1. General Communication (Card, Action)
The action can be performed by SEC user to share some information with the facility. The user will select the option and submit it and the information will be visible to the facility admin under the general communication card on the facility dashboard.
2. Show cause notice (Card, Action)
The action can be performed by SEC to give the show cause notice to a facility. The user will select the action and submit it to the facility with the due date of response. Facility can respond on the notice and SEC can initiate further actions accordingly. The actions will be as follows:
 - a. Stop payment (Card, Action)
 - b. Suspension (Card, Action)
 - c. De empanelment (Card, Action)
 - d. Blacklisted (Card, Action)
 - e. Accepted (Action)
 - f. De-empanelment of specialty (Action)
3. Investigation FIR (Card, Action)
SEC user can raise the FIR against any facility.
4. Investigation Penalty (CARD, Action)
SEC user can impose penalty against any facility using the option.
5. Immediate suspension (Action)
SEC user can initiate the action which once approved will mark the facility as suspended without any prior action for the maximum period of 6 months.
6. Inactive (Card)
The action will be triggered against a facility in case
 - a. Facility registration certificate expires.
 - b. TMS initiates trigger for not performing preauth in past 6 months

In the above scenarios, TMS will be informed with the inactive facility status to stop the operations, Facility can request the action for activation which will be approved by sec, Once approved it will be communicated to TMS.

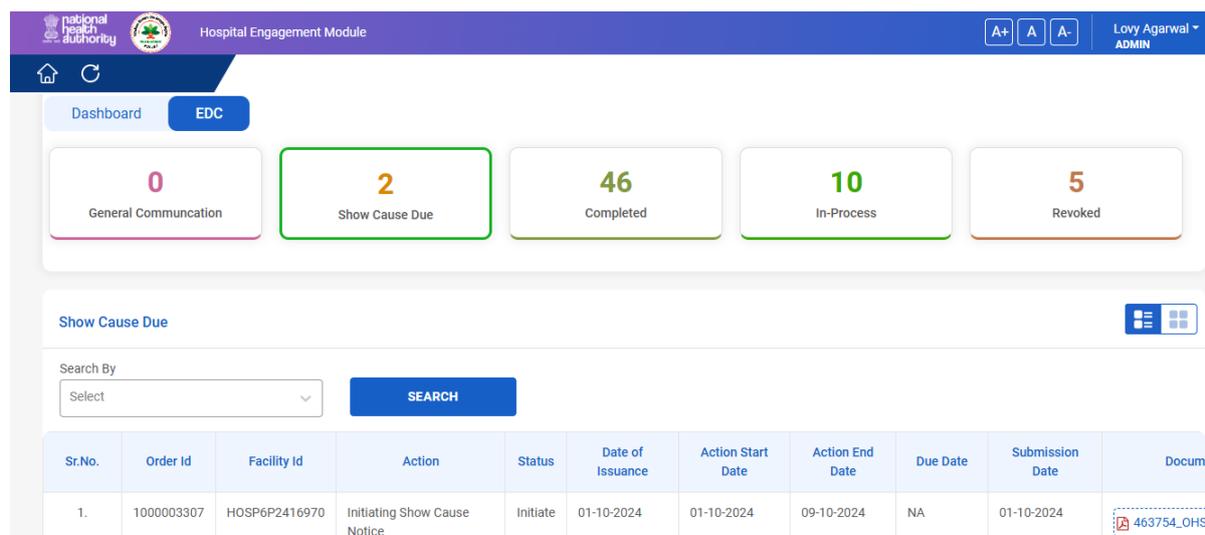

7. Revoke (Card, Action)

The action will be available to facility admin to request to revoke the following actions stop payments, suspension, de-empanelment, Blacklist, Inactive. While the Revoke card will show the list of revoked actions requested by various hospitals of the state on SEC dashboard and same will be reflected in TMS.

Note: In case of suspension revocation, the facility will continue to be marked as empaneled while in case of other options, facility has to raise the request for empanelment to the respective approver as per the workflow from the revoked hospital card.

Facility Admin:

Facility admin have certain privileges with respect to the disciplinary action against their facilities.

The screenshot shows the Hospital Engagement Module dashboard. At the top, there are navigation icons and a user profile for 'Lovy Agarwal ADMIN'. The dashboard features five cards representing different action categories: General Communication (0), Show Cause Due (2), Completed (46), In-Process (10), and Revoked (5). Below these cards, there is a section for 'Show Cause Due' with a search bar and a table of actions.

Sr.No.	Order Id	Facility Id	Action	Status	Date of Issuance	Action Start Date	Action End Date	Due Date	Submission Date	Docum
1.	1000003307	HOSP6P2416970	Initiating Show Cause Notice	Initiate	01-10-2024	01-10-2024	09-10-2024	NA	01-10-2024	 463754_OHS

They can view and take required action against the following actions

1. General Communication: It shows the communication received from the EDC/SEC. Hospital may or may not respond on the same which is non mandatory.
2. Show cause notice: It shows the notices received from the EDC/SEC and. Hospital is mandatorily required to respond on the same.
3. Completed Card; It shows the facilities with the actions of Stop payments, De-empanelment, Blacklist, Suspend,
4. Revoked : The card represents the list of revoked facilities by SEC, the facilities can initiate the re-empanelment after the revocation.
5. Request to Revoke Facility: The action can be initiated from completed card which will go for approval to SEC

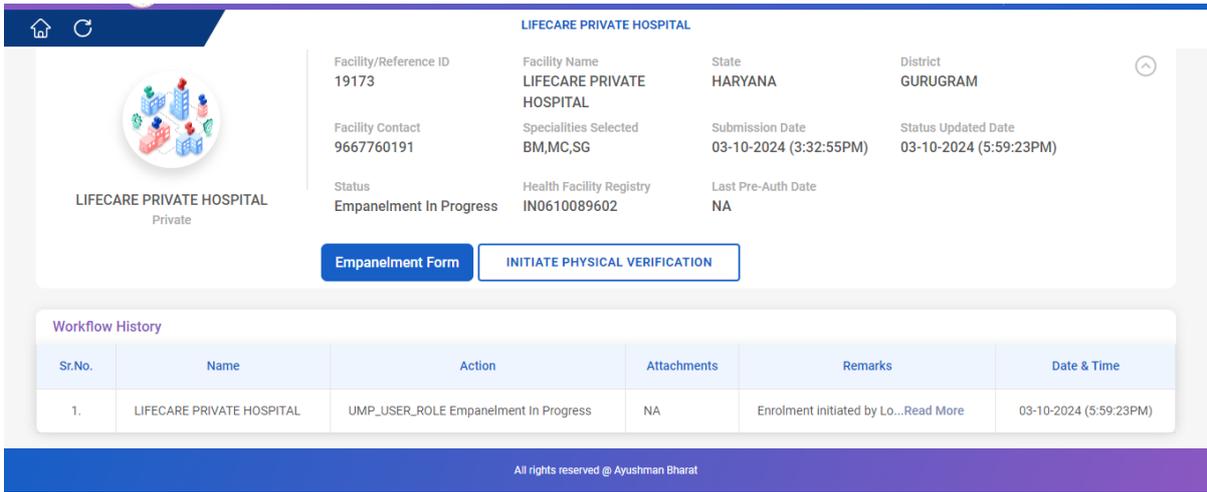

6. Re-empement: The action can be initiated from Revoked card to initiate the re-empement.

Notes:

1. Action start date will be current date
2. In case of show cause notice, action due date will be 5 days next to current date and auto filled

9. PHYSICAL VERIFICATION

DEC/SEC officer will assign the empanelment form for physical verification to either of DEC verifier/ SEC Verifier/external verifier. The officer will open the details of the facility and click on the 'Initiate Physical Verification' button.

Due Date of Physical Verification*: 16/10/2024

[BACK](#) [INITIATE VERIFICATION](#)

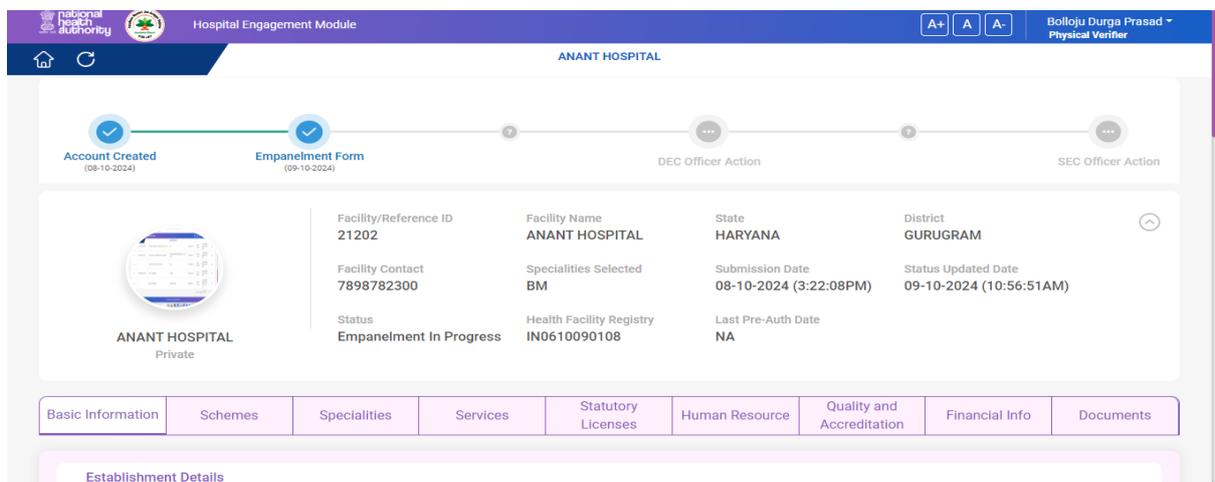

The officer will select verification authority, physical verifier while the rest of the details shall come as populated for external verifier since they have to complete the verification in 7 days from the date of assignment. Once the necessary details are selected and the verification is initiated, the request will land into the bucket of selected physical verifier to perform the necessary physical verification against the facility.

The selected physical verifier will log into the system to and can search the request for verification using the filter named status, and initiate the verification by clicking on the action button against the facility.

After providing the inputs in the respective fields in the section of empanelment form, the verifier will submit the form which will move the assigning authority to take the further actions on the respective facilities.

Note:

1. In case DEC officer is not in the position to submit the application to SEC, A TAT facility will be initiated after 30 days such that the application will be moved to the Auto Escalated Card on SEC dashboard.
2. Auto Escalated records can have 2 status:-
 - I. Physical Verified by TPA/DEC
 - II. Pending for Physical Verification
 - III. In above both the cases SEC officer can send for physical verification to TPA/SEC verifier. Once done Sec Officer can take the final action.
3. In case, Physical Verifier (TPA) doesn't respond/not able to complete physical verification in the mentioned timeline (TAT), the application will be moved back to DEC/SEC respectively to take the appropriate action on the application. Thus, there can be the scenario when data is not verified by TPA, and it moves back to DEC/SEC then this needs to be highlighted accordingly.
4. Physical verification will be non-mandatory for Government state and Central Facilities.
5. Physical verification will be non-mandatory for NABH/QCI certified facilities, medical college hospitals.
6. Audit of at least 10% of application physically verified by TPA will be done at SEC level and accordingly a separate card should be enabled for the same.
7. DEC/SEC officer can raise the query which facility has to respond within 3 working days
8. Physical verification can also be performed for the empanelled facilities as an audit.

10. ANNUAL DECLARATION

Facility will be required to submit an annual declaration to confirm that the facility details are being regularly updated and is currently empanelled with the right set of features and specialities.

11. GREEN CHANNEL

Green channel is a feature provided to the facilities to avail the 50% payment before the treatment such that the facility should meet certain basic criteria of empanelled for more than 6 months, etc.

Green Channel Entry:

Once the system generated trigger is enable, the green channel button will be enabled for the facility and admin can raise the request to avail this feature. Once the request is approved by SEC, the facility will be enabled with the green channel feature.

Green Channel Exit:

Facility has the provision to take the exit from the green channel by raising the request for the approval to SEC, once approved, the facility will get the Exit.

Green Channel Exempt:

A provision has been provided to SEC to exempt the facility from green channel such the trigger is initiated from TMS based on the certain parameters and accordingly, it will be actioned upon by SEC for the final action on the trigger.

13. EXTERNAL VERIFIER AUDIT

HEM2.0 application enables the facility to DEC approvers to perform the audit of the empanelled facilities which have been physically verified by third party/external verifier. DEC is mandated to perform the audit of at least 10% of empanelment application physically verified by third party/external verifier in last 90 days - configurable. In case of fraction value, the closest higher natural number value will be taken into consideration. There are 3 scenarios in which a physical verification can be performed by external verifier and all the scenarios will be considered under the audit process by authorities. Following scenarios are as follows.

1. Physical verification during Empanelment.
2. Physical verification during Upgrade
3. Physical verification during Annual Verification after empanelment.

Thus, the facilities which have gone through any of the mentioned process will be considered for the audit process.

Sr.No.	Facility/Reference ID	Facility Name	Specialities Selected	Empanelment date	Physical Verification Completed Date	Physical Verification Authority	Physical Verifier	Status	Sub Status	Action
1.	HOSP6P2411200	PRIVATE	BM	25-10-2024	01-11-2024	Empanelment	7799177451 - Bolloju	Physical	NA	>

Pending for Audit: It will show the list of hospitals physically verified by third party/external verifier in last 90 days. SEC officer will initiate the process of physical verification - Audit for the facilities in the list such that SEC officer will select the 10 % of the facilities manually and assign them for Physical Verification to DEC physical verifier or SEC physical verifier. Once the facility is assigned to the verifier, It will be moved to the verifier's pending bucket and Audit in progress bucket on the DEC Officer's login.

Audit In Progress: It will show the list of hospitals for which audit has been initiated by SEC officer by assigning it to Physical verifier. In case, there are changes identified in the empanelment form by the physical verifier, It will be reviewed by the officer and necessary action will be taken on the same.

Audit Completed: It will show the list of hospitals which have been audited by DEC/SEC physical verifier and has been successfully acted upon by SEC officer, thus the status of the change suggested and its final action will be visible under the card.

14. IMPORTANT POINTS

- 1) The Login credentials will be created in UMP application.
- 2) Users shall self-register for their respective role and there by the request will be approved by the respective Admin.
- 3) Each entity-Hospital needs to have “Admin Role” in the User Management Portal.
- 4) Approver logins will be approved by the respective state/ NHA admins
- 5) All other entity admin within the state will be approved by SHA.
- 6) All the self-registration will be approved by the respective entity admin.
- 7) Same Aadhar number cannot be used for multiple signup.

15. FAQ

Ques1 What is HEM?

Ans. HEM is an application which has the following features:

- Facility Empanelment
- Disciplinary actions against facility
- Facility withdrawal from scheme
- Facility Approval/required actions by admin
- Search facility and view facility profile
- Create appointment and give feedback
- View dashboard and reports
- Create Inspection team for the field verification

Ques2 How to create account for HEM to login?

Ans. User will be required to sign-up on the portal using the Aadhaar number. Once the signup is done, user will be required to login the application and user can perform required actions.

Ques3 How to Sign-up in UMP?

Ans. User will be required to go to signup page. Now user will be required to perform e-KYC through Aadhaar number, once it is done user will be required to enter necessary details (Address, email ID, mobile number, user ID, password). Once the details are submitted the signup process is considered as completed.

Ques4 What can I do If I have forgotten my credentials?

Ans. User will be required to click on the forgot credential option on the login page, a new page will appear where the user will be required to perform Aadhaar e-KYC and post which user will be able to view and change the credential.

Ques5 How to reset user ID/password?

Ans. User will be required to click on the forgot credential option on the login page, a new page will appear where the user will be required to perform Aadhaar e-KYC and post which user will be able to view and change the credential.

Ques6 How to create role?

Ans. User will be required to login on UMP application, now user will be able to view the add role on the portal (In case of admin dashboard under My role). User will be required to click on the add role and select the required parent entity, entity type, entity name, role, application and submit it for approval. Once the role is approved by the entity admin, user will be able to access the roles and perform the required action.

Ques7 What is parent entity?

Ans. Parent entity could be any entity which has a child entity under it. Such as SHA-State is the parent entity for hospital while Global is the parent entity for SHA-State.

Ques8 What is entity?

Ans. It is the body/organisation the user belongs to such as SHA UP, DIU, Agency Names, etc.

Ques9 What is entity type?

Ans. It represents the type of the entity user is working under. Such as SHA, NHA, Hospital, Card Creation Agency, etc

Ques10 How to search a hospital?

Ans. User can find any hospital under search facility option where they can view the hospital profile and make the necessary decisions
